

## Technical Data Sheet

### Blasting Glass Beads

**Description:** Glass beads are environmentally friendly and contain no free silica, which are widely used in metal finishing operation, including cleaning, finishing, peening and deburring.

#### Popular Size:

No.#	Mesh Size	Micron
3#	20-30	850-600
4#	30-40	600-425
5#	40-50	425-300
6#	50-70	300-212
7#	60-80	250-180
8#	70-100	212-150
9#	80-120	180-125
10#	100-170	150-90
11#	120-200	125-75
12#	140-230	106-62
13#	170-325	90-45

Size of glass beads could vary, which is subject to customers' requirement.

#### Typical Properties:

- Color colorless
- Roundness >70%
- Heavy content <200ppm
- Hardness Mohs 6-7
